First Circular – 6 March 2012

New intense Radioactive and stable beam facilities are now under construction around the world. With the aim of creating and updating the skills of various researchers to exploit these facilities, this year's edition of Ecole Joliot Curie will address the topic:

“Nuclei through the looking glass: High intensity stable and ISOL beam frontier”.

This announcement is for the opening of the pre-registration of the 31st Ecole Joliot Curie school.
<http://ejc2012.sciencesconf.org>

The school will take place from 30th September (Sunday) to 5th October 2012 (Friday). The school will be held at La villa Clythia, Frejus, (near Nice) in the south of France
<http://www.caes.cnrs.fr/vacances/nos-villages/la-villa-clythia>

Participants are expected to arrive in **La Villa Clythia** on Sunday, 30th September 2012 in mid afternoon and leave on Friday 5th October 2012 at 13h30 .
Lectures will start at 4.00 pm on Sunday 30th September 2012 and end on Friday 5th October 2012 at lunch.

During the school two sessions (Sunday 30th September and Monday 1st October 2012) will be dedicated for the student's posters.

Pre-registration will be open from March 8th to April 24th, 2012.

The attendance being limited to 70, a selection of participants will be made at the end of the pre-registration period. After the closure of the pre-registration the Organizing Committee will make the selection of participants. Each applicant will receive an e-mail on behalf of the Organizing Committee about their acceptance before May 2nd 2012.

More details of the school can be found on our website: <http://ejc2012.sciencesconf.org>
